Eva Schippers [1980] is a visual artist and performer working and living in the Amsterdam. She received her MFA in 2010 at the Dutch Art Institute and her multidisciplinary works deal with the notion of EMERGENCY. Her work will be shown on the Moon in 2025 and has been shown from Brussels to Prague, to Sao Paolo and Spain in institutional and off spaces, fairs, performance venues, festivals and various public spaces.

From 2005-2010 she collaborated with Serge Lammerts in a performance duo, addressing human relations. Their performances have been executed in different venues, for example at Noorderzon [Groningen], DefKa [Assen] and Madrid Procesos [Madrid].

Eva has been a curator/initiator of various initiatives since she came to Amsterdam in 2013, such as MoMart [2013-2014], Plantage Dok guest studio [2017-2020] and the Culturele Stelling van Amsterdam [2022-present].

Since 2020 Eva has also been organizing public events with art, performance and science since 2020 under the name 'Think Different,' in which she brings people together [artists, writers, scientists, worried citizens] in various free spaces in Amsterdam, challenging them to look at topics in a different way: only in conversation with others you can be fully human [Hannah Arendt].
